

# PCB 444

## KEY CHARACTERS

- Early to Medium maturing
- High yielding
- Resistance to wilt and root rot
- High seed weight and oil content
- Better suited to different cropping sequence
- Suitable for rainfed and irrigated cultivation

## SEED YIELD (KG/HA.)

- Rainfed yield – 2100-2200 kg/ha
- Irrigated yield- 3600-3700 kg/ha
